## Short History and a Word of Tribute.

Since the history of Mennonitism has been written by many able scholars let it suffice to give just a short sketch of our people in order to make intelligible reading to those who may not have access to other historical works.

Most of our people came from Holland where the Mennonite faith developed from the Anabaptist movement in Europe. Dutch noblemen had granted toleration for a time to various elements of these Anabaptist bodies early in their history. However in the passing of years the liberal rulers died and new ones came to power who either personally or thru pressure from other ecclesiastical sources, did not look with favor on these people because of their religious beliefs.

Menno Simons, a former Roman Catholic priest who had left the church, assembled the believers in Holland and organized them into a fellowship or society. Having been their leader, he became their pastor and later their elder.

Not being tolerated any longer in Holland, they had to look about for a new place of abode. Fortunately about this time the Prussian and Polish nobility of the Vistula River valley heard of them, and knowing of their ability and skill to transform below sea level land into productive soil, invited them to come and settle on their estates.

Written contracts have been found showing how these Dutch Mennonites by groups leased large tracts of land from the noblemen on long-term leases, usually 30 to 40 years, in which were specified the privileges they would have as well as their obligations to the landlord. Covered were such items as the use of forests for building lumber and fuel, the right to sell their produce in the nearby towns, fishing and transportation rights on the rivers, building of access roads and other economic rights. Most important of all, however, the contract also covered the right to worship as they pleased, to bury their dead, to build chapels and schools, and to man them with their own teachers who gave religious instruction to the children as well as teaching the three R's.

They soon built thriving villages where formerly swamps and floods held sway. Two-thirds of the arable land of Poland was at that time uncultivated. These Dutchmen, thru superhuman effort dammed and brought under control the banks of the Vistula and its tributaries, drained the swamps and succeeded in making tillable soil of the once devastated area. They knew the value of good stock and took good care of it. They introduced purebred lines and knew how to make good cheese and butter which had a ready market in the nearby towns. As the land yielded increased income so also had they to pay increased rent.

But the land area was limited and as succeeding generations came to maturity a land dearth arose. They were confronted with the alternative of finding other means of livelihood or other places of settlement. Some made their living by working at masonry, woodsmanship, weaving and other crafts which yielded but a meager existence; thus they had to seek other places of abode.

During this time Catherine II of Russia had learned about these enterprising people and she decided they were just the kind she needed to build up her country's economy. She invited them to come there, offering free land, tax exemption for a number of years as well as exemption from military service plus many other privileges. Also about this time, 1772, Poland was divided between Austria, Russia and Prussia, most of the region where our forefathers lived going to Prussia.

Our forefathers were fairly well satisfied with Prussian rule but their emperor, Frederick the Great, needed soldiers for his many military campaigns and he regarded with envy the fine young men of the Mennonites. Soon he demanded that they be inducted into the Prussian army. This they resisted and another crisis presented itself.

Many of our people later took advantage of Queen Catherine's invitation and moved to the rich productive areas of the Ukraine with its favorable climate and rich soil, spreading to the valleys of the Molotschna and Volga Rivers, where they greatly prospered. Others decided it would be better to be back under Polish rule and moved back into regions not too far from Ostrog where they founded the villages of Karolswalde, Karolsberg, Waldheim and others; near Warsaw the villages of Deutsch-Kasun and Deutsch-Wymischle, and Michalin and Heinrichsdorf farther on into Russia.

So here is where we meet our immediate forefathers when by about 1871, Poland was taken over by Russia and it meant that all would be integrated into the Russian order of the day. Queen Catherine had died and another ruler had come to the throne who wanted to terminate the special privileges of the Mennonites. Again, compulsory military service was the principle to which they would not consent.

Before going on mention must be made here that after some few years the Mennonites who remained in Russia succeeded in making an agreement with the czarist government that in lieu of military service their young men could perform forestry work which was satisfactory to them. However after the Bolshevik Revolution when unspeakable persecution, oppression, famine and indescribable suffering was visited upon them they bitterly regretted not having come to America when they had the chance.

Referring again to the Volhynian Mennonites and some of the Russian brethren, after hearing of the opportunities in the New World, they decided to investigate the conditions here so a deputation of 12 men was chosen and sent to America to look things over and examine colonization possibilities.

Just previously some literature had been received from several railroad companies that were building new lines to the western frontiers, inviting settlers from Europe and extolling the opportunities of obtaining cheap land on their right of way, thus exciting the landless masses of these regions to look into the offer.

Elder Tobias Unruh was the one chosen from the Volhynian Province of Poland to be the representative of our forefathers. These 12 men investigated the situation in the middle states and Canada. When they returned to their people and described to them in glowing terms the opportunities they would have plus the possibility to satisfy their yearning to own land, and the freedom to live and and worship unhampered it was immediately decided to come to America. They did not obtain the promise of military exemption but were quite assured wars were not in the realm of possibility in our country so they were willing to take a chance on that.

Now that the decision had been made to come to America, what an excitement ran thru the villages. Words fail us in properly describing the imaginary scenes taking place in the preparation to move. It must have been a stupendous job getting everything ready for the long journey to the port of embarkation, then across the ocean which seemed especially dangerous to them. It happened that since they left in the late fall, the most of them had a particularly stormy voyage. Their processing at the immigration offices in New York, Baltimore, or wherever they arrived; the long train trip across half the continent to Kansas and from Newton to their final destination.

Here they came in the middle of winter to face the raw blizzards on the windswept prairies of Kansas where they were to build their new homes; under entirely new conditions on these treeless plains where there was no wood for fuel or building like they had been used to in their old home, they nevertheless went to work with courage and fortitude to establish themselves; they proceeded resourcefully to build houses of rock and sod, to dig wells and break up the sod to plant their crops.

However it was by no means easy. The Polish Mennonites were some of the poorest of the poor and if it had not been for the generous help of their eastern brethren in Pennsylvania, Ohio, and Indiana who helped them get a start, some of them might not have made the grade.

While their religious convictions against military service was perhaps the main reason in reaching the decision to leave their old homeland, no doubt their very poverty weighed heavily in the matter and they perhaps felt that at least their children would have better opportunities in the New World, and that they themselves could not worsen their own condition by coming here.

But, however one may assess their reasons one can't help but feel that Divine guidance was with them for they could not possibly have known that in a few generations the area they were leaving would be visited by the most terrible upheaval in history, namely the first World War followed by the tragic Bolshevik Revolution and that again by World War II.

In reading of the terrible fate which befell those who remained in Russia, Poland and Germany it staggers the imagination as to why such cruelty should be inflicted on a peace-loving group. However several factors contributed to the particular treatment which was meted out to them by the Soviet government: 1st. Thru previous agreements with the czarist government they were enjoying special privileges as to military exemption, plus the start they received in early colonization arrangements with Catherine II.

2nd. They were German and did not mix with the Russian population by inter-marriage, had their own local government in their villages, schools and language. Thus in the mounting Russian nationalism this was looked upon with disfavor and suspicion.

3rd. They were industrious farmers and workers and naturally prospered, thereby coming to enjoy a higher standard of living than the surrounding Russian population, which caused envy.

4th. Their strong Christian faith also was a thorn in the atheistic and materialistic program of the Communists.

5th. Their ministers and teachers were considered the spiritual leaders of

their people and thus were the first ones to come under suspicion of the Soviets, and became the victims of the most inhuman treatment that diabolical minds could devise.

With cold-blooded and malicious intent they were systematically disrupted, dispossessed of all they had, families separated and sent to far-off Siberia and other places to slave labor camps, often the men to one place, the women to another and children to a different area. Many suffered a slow agonizing death in prison. Many starved to death because the famine which came upon the country was a direct result of this inhuman policy for the most enterprising, industrious and intelligent farmers were exiled where they could produce food neither for themselves or others.

Thus we see what we, who were no better, escaped by the narrow margin of just not being there! Do we deserve this good fortune? Then let us hold in honor those to whom we are so greatly indebted, and treasure the more our own form of government.

Let us not be remiss also in assessing the contribution they made to our country's greatness. They were not the type to seek fame and fortune but they were of the common ordinary type of whom Abraham Lincoln said "God must have loved them for he made so many of them." They not only made a great economic contribution but their freedom loving nature fitted in with our constitutional government. They strengthened and undergirded the laws and institutions in which our society believes and has put into action, such as freedom of religion, of speech and of conscience, communication and thought.

In order to estimate the nobility of their character we must remember that as heirs of the Anabaptist movement, theirs was a heritage of the persecuted. They were almost inured to suffering, accustomed to being uprooted, persecuted and banished, driven from place to place.

However, it can also be said with credit to the modern generations that they have risen nobly to the challenge and example of their forefathers. In lieu of military service many young people have given years of voluntary service as teachers in schools for under-privileged children, nurses and attendants in mental hospitals, as "guinea pigs" in research projects, in agricultural improvement programs in foreign lands, in building homes in war-devastated countries. Groups of men from the different churches of late have formed disaster units to hold themselves in readiness to go to places where tornado, fire, flood or other misfortunes have struck, giving aid in cleaning up and rebuilding of homes of the victims, providing food and medicines, clothing and bedding and shelter; all without a thought of remuneration, but given voluntarily "in the name of Christ." Almost everywhere they are found in the forefront of humanitarian work.

Among them are found numbers of educators, ministers, missionaries, doctors and nurses. In fact, to the voluntary workers has been given a great deal of credit in raising the standard of care in our state mental institutions and the mentally retarded.

But human nature being what it is, no doubt many descendants of our noble forebears may have forgotten or perhaps never learned to know who they were and what they did for us in making the historically important decision to come to these shores.

This then explains the purpose of my work and to whom it is dedicated. I feel it is the least we can do to leave a written record of our noble ancestors, giving as much information of them as could be found in written family and church

records, and reducing to written form such traditions as have been passed down to us by word of mouth.

I hope this record will be of value in some way and that its value will increase with the passing of time. We do not know what will be the problems of future generations and can only hope that what we do for them to the best of our knowledge and ability will some day be useful to them.

I wish to acknowledge herewith the help and encouragement I have received from many of the families in gathering data and information I requested; the encouragement that was given, the wellwishes and "God bless you's". Thanks to all of you. I also wish to express in fulsome measure the gratitude to each and everyone who sent me their family records, and for the confidence and trust they placed in me. After all, family records and vital statistics are a very intimate and private possession and no doubt some people might question the wisdom in divulging them.

I have compiled four separate family records, i.e., the records of both sets of my grandparents as follows:

Paternal Grandparents:

PETER ECK, Sr., son of HENRY ECK, who was a son of ZACHARIAS ECK.

His wife

AGANETHA UNRUH, daughter of DAVID UNRUH, son of GEORG UNRUH.

Maternal Grandparents:

ANDREAS SIEBERT, son of ABRAHAM SIEBERT, son of JACOB SIEBERT, son of ADRIAN SIEBERT.

His wife

LUVINA DECKER, daughter of ANDREAS DECKER, son of HANS DECKER, son of HANS DECKER, son of HANS DECKER.

The above named persons and their brothers and sisters I've called the PATRIARCH line who are designated by capital letters, A, B, C, etc.

The generations previous to them are given by names only.

The generations following them are designated by Roman numerals, Arabic numerals, Arabic in brackets, Arabic letters, Arabic double letters, etc.

I have tried to give as much information of each one as could be condensed in a few lines, such as name and religion, birthdate and marriage date, birthplace, deathdate or address.

In cases where religion in line of descendency was not specifically known I have designated them Protestant, since that is our background. However in a few cases this may be incorrect for which I ask to be pardoned.

In a few special cases where information was furnished me, I have given the occupation, and/or educational background, military record, and accomplishments. I should like to have done this for each one but it would have prolonged the process of gathering data as well as the size of each book.

I wish to acknowledge in a special way the help which I received from the following persons:

Dr. Cornelius Krahn and Mr. John F. Schmidt at the Bethel College Historical Library, North Newton, Kansas, through whom these Family Records are available.

Mr. J. A. Duerksen, Washington, D. C. (Decker and Siebert Records)  
Mr. John A. Boese, Tyndall, S. Dakota (Siebert and Unruh Records)  
Mrs. Martha Moffett Marshall, Petoskey, Mich. (Siebert Record)  
Mr. Grant Siebert, Great Bend, Kansas (Siebert Record)  
Mr. Peter W. Janzen, Sardis, B. C. Canada (Siebert Record)  
Mrs. Katie Partridge, Orem, Utah (Decker Record)  
Mrs. Crissie Jones, Hayward, California (Eck Record)  
Mrs. Agatha Koop, Calgary, Alta., Canada (Eck Record)  
Miss Ruby Penner, Fairview, Oklahoma do do  
Mrs. Ruby Kennedy, Hooker, Oklahoma (Decker Record)  
Mrs. Katie Nightingale, Cleo Spgs., Oklahoma (Eck Record)

May what we together have done rebound to His glory and Honor, by Whom we live and Whose we are. This is my wish and prayer.

In addition to the previously expressed sentiments I am submitting two short gems of thought which aid in expressing my feelings in paying tribute to our forebears more adequately.

#### THIS IS MY LEGACY.

Dear Editor:

My forefathers were extremely plain people, poor and humble, but I have received one very precious heritage from them. They have never given me a famous name, nor money, nor property, nor lovely heirlooms. I know almost nothing of them beyond my grandparents. Not even my childhood memories are very happy ones. And certainly no one has bequeathed me a beautiful face or figure.

What, then, is my legacy? Many years before I was born, my ancestors came to America and made their home in this beautiful land. That is my great heritage--just the chance to live here, and to bring up my children here, free men and women, where we still have a chance at life, liberty and the pursuit of happiness. It is my greatest blessing, worth much more than gold or castles, and I am deeply grateful to my forefathers. -- A letter submitted to the Farm Journal

by Mrs. Erwin Yancey, New York.

#### THE LOVE OF HOME.

It is only shallow-minded pretenders who either make distinguished origin a matter of personal merit or obscure origin a matter of personal reproach. Taunt and scoffing at the humble condition of early life affect nobody in America but those who are foolish enough to indulge in them, and they are generally sufficiently punished by public rebuke. A man who is not ashamed of himself need not be ashamed of his early condition.

It did not happen to me to be born in a log cabin; but my older brothers and sisters were born in a log cabin raised among the snowdrifts of New Hampshire at a period so early that when the smoke first rose from its rude chimney and curled over the frozen hills, there was no similar evidence of a white man's habitation between it and the settlements on the rivers of Canada.

Its remains still exist. I make it an annual visit. I carry my children to it, to teach them the hardships endured by the generations which have gone before them. I love to dwell on the tender recollections, the kindred ties, the early affections, and the touching narratives and incidents which mingle with all I know of this primitive abode.

I weep to think that none of those who inhabited it are now among the living; and if ever I am ashamed of it, or if ever I fail in affectionate veneration for him who reared it and defended it against violence and destruction, cherished all the domestic virtues beneath its roof and, through the fire and blood of a seven years Revolutionary War, shrank from no danger, no toil, no sacrifice to serve his country and to raise his children to a condition better than his own, may my name and the name of my posterity be blotted forever from the memory of mankind!

By DANIEL WEBSTER.

## DECKER HISTORY and ORIGIN

We have found a fascinating bit of history in connection with our line of the DECKER FAMILY. This account in substance had been buried in the city archives of Driesen, Prussia, for many years but was brought to light by a young student, Herbert Wiebe, who took for his thesis for a doctor's degree the project of a research on the early settlement of Dutch Mennonites in the Vistula valley. It was just before World War II when, after completing his document, he was drafted into the army and fell in battle.

One of our earliest progenitors of whom we have any record is Hans Decker, II, who with his family lived near Culm, a town at the confluence of the Vistula and Fribbe rivers. The name of the village where he and his fellow believers lived was Jesiorken (German, Kleinsee), Poland. They lived on the estate of a Polish nobleman who was a hard master and from whose tyranny they wished to escape. This was in 1738.

This little group decided among themselves to petition the Prussian government for permission to settle there, but Prussia became involved in a series of wars with Silesia, so action was suspended. However as soon as peace was restored they again made plans to contact the Prussian government for permission to lease land in the Netze River valley in the province of Neumark. Thus in 1764 a commission of three men were elected to go to Berlin and given authority to contract for land. Their names are not given.

Here we are given an interesting glimpse of the customs and manners of those times. Apparently they had no other way of admittance to the king's palace than by walking to and fro in front of the gate until someone noticed them and inquired as to their mission. So these 3 ingenious men, dressed in the style of the Old Flemish sect, (dark long coats without collars and with hooks and eyes instead of buttons) must have been a strange sight walking back and forth before the king's castle until his privy councilor, von Brenkenhoff, noticed them and had them called in. They laid their mission before this eminent administrative officer who was entrusted with colonization of the Netze River valley. He then presented their petition to the king.

Thus on the 17th of Feb. 1765, Frederick the Great granted to 28 families a contract to settle, giving them far-reaching privileges and rights, religious toleration, exemption from military service, the use of the 'yea' and 'nay' instead of the oath, etc. Each family was granted the use of 40 acres of land and meadow as well as free lumber from the forest for building and fuel.

Economic privileges consisted of the right to sell or trade for goods their cheese and butter and other products in the nearby towns without being molested. They were given the status of 'free men' so as not to be constrained to perform menial tasks which they strenuously had resented under the Polish landlord. They were accorded the right of their own schools manned with their own teachers

To them was also granted the privilege of asking for military escort while moving from their home in Poland to the Prussian border. Whole regiments of these were commonly in use by immigrants coming from Poland because of the anarchistic condition of that country's government at that time when organized bands of robbers preyed on immigrant trains. The militia constantly patrolled the roads and it was their job to see that the settlers together with their livestock and loads of farm implements and household goods got safely across the Prussian border.

However the Jesiorken Mennonites feared that their Polish landlord, Anton von Wybesynski, would not release their movable property, so two of their representatives, the Brothers Just and Solomon Schmidt asked that a vanguard of troopers ride to Jesiorken to persuade the Polish nobleman to give up their property, by force, if necessary. Von Brenkenhoff, who was charged with responsibility by higher authority to see that their colonists were treated fairly and got thru safely, is said to have remarked to his superior that he knew of no method by which he could persuade this nobleman to do that if his polite requests were ignored. However an attempt was made.

The Prussian minister of Finance in Danzig, Mr. Reimer, who was charged with the exaction of the claims of the immigrants from the landlord of a thousand guilders, could not persuade him to honor them. He refused because he would not impair the value of his own property by paying these debts. Reimer's personal secretary had negotiated for nine days with the nobleman but he refused to be moved from his position. When Reimer reminded him that these colonists had complained of having to perform menial tasks as free men, the nobleman had replied: "Anyone living in Poland on a nobleman's estate, whether a subject or free, always was required to do menial work." And for their building and improvements which they had constructed at their own cost he offered such a ridiculous price that the Mennonites refused to accept it.

Sixteen of the twenty-eight Mennonite families settled near the town of Driesen in one village, and their names are as follows:

- |                    |        |                   |        |                        |        |

| 1. Peter Buller    | (35)   | 6. Hein Ohnrau    | (968)  | 11. WW. Rich. Reichert | (755)  |
| 2. Hans Decker, II | (419)  | 7. Heinr. Ohnrau  | (962)  | 12. Jacob Thomas       | (933)  |
| 3. Ernst Koehn     | (588)  | 8. Peter Ratzlaff | (76)   | 13. Corn. Vood         | (1068) |

They named the village Brenkenhofswalde in gratitude to and in honor of their patron, Von Brenkenhoff. The numbers in brackets after each name indicate they are on the Prezechowka church record. Our forbear, Hans Decker, II besides his wife and 2 sons and 2 daughters had 2 horses, 2 cows, 3 sheep as well as several head of young stock. Likely his children were all born in Jesiorken, and he came here with his 2nd wife, Elske Schmidt.

The other twelve Mennonite families founded the village of Franztal nearby. Later others came there too, and it is said that from here was initiated the movement of Mennonites to Russia in 1835. We have on record too, that our great-grandmother, Helena Schultz came from Franztal<sup>1</sup>. We also see in the record that Hans Decker, III married a Sarcke Voht(en) who may have been the daughter of Georg Vood, No. 14. There was much inconsistency in spelling their names, the different church secretaries spelling them according to his own pronunciation or idea.

## THE EARLY DECKER GENERATIONS.

We find the names of two brothers, Hans and Hein Decker, in the early Prezechowka church record followed by a remark, "origin unknown." They may have been either Dutch or German, as the name is known in both countries.

Beginning with this information, our lineage starts with three successive generations of Hans Deckers. Hans is a contraction of Johann, (Eng. John), so for the purpose of clarity I shall designate them by the numbers I, II, III.

### 1st Generation.

JOHANN DECKER I, 1st wife's name unknown, had two sons:

- 1 Andreas Decker and 2. Jacob Decker. His 2nd wife was TRINCKE BECKER with whom he presumably lived in Schoensee. She was a daughter of Hans Becker of Lutheran faith. Their children
3. JOHANN DECKER II, birth date not given.
4. Ancke Decker, born 24 May, 1706. Married to Jan Jantz.
5. Sarcke Decker

### 2nd Generation.

JOHANN DECKER II, first wife Sarcke Pankratz, born 3 Oct., 1722, daughter of Jacob Pankratz. Their children were

1. JOHANN DECKER III, who married Sarcke Voht(en), birth dates not given.
2. Sarcke Decker who married Jacob Nachtigal.

After his first wife's death he married ELSKE SCHMIDT(EN) with whom he had more children and who survived him and went with her children to Russia later.

### 3rd Generation.

JOHANN DECKER III, married SARCKE VOHT(EN), daughter of Georg Voht. His birth date is not given but he was baptized 26 Oct., 1777. To this union were born the following children:

## Historical Sketch and Family Index.

ANDREAS DECKER was born in the Kingdom of Prussia, District Neumarkt, in the village of Brenkenhofswalde near the town of Driesen. It is not known when he came to Karolswalde, but perhaps as a young man, either with or without his parents. This village in Poland was settled by Mennonites from Prussia in about 1800 and no doubt he pioneered in this event. We know that he was baptized there by Elder Benjamin Unruh of the Karolswalde church Sep. 11, 1815.

Here he also was married to the maiden, Maria Koehn, who was from the settlement of Michalin near Machnovka, Gouvernment Kiev, Russia. To this union was born a daughter Helena who died in early infancy, the young mother having preceded her Jan. 2, 1817.

His second marriage was to Helena Schultz(en) who was born in Franztal, Neumarkt Province. She is said to have been of Lutheran parentage but was baptized in the Mennonite faith at Karolswalde by Elder Benjamin Unruh on her 18th birthday. To this union were born the following eleven children:

Helena Schultz Decker died 19 Jan., 1860, at the age of 60 years, 2 months and 23 days. Her father was Christian Schultz, born 29 Nov., 1764 near Radlin at Schulansky in Prussia. His mother's name was Maria. His wife's name was Anna Christian, a daughter of Johann Palman, born 6 Jan., 1780 near Driesen. According to tradition they were of Lutheran faith.

ANDREAS DECKER no doubt was a pioneer farmer in Karolswalde, but also according to tradition, he was the community doctor. How much technical training he had we do not know, but he may have had a chance to go to school and study along this line while a youth in Prussia. And possibly he had more of a natural gift or aptitude as is evidenced in some of his descendants who also practiced in setting and splinting broken bones, pulling teeth, letting blood, midwifery and nursing. He died Nov. 16, 1872, attaining to the age of 81 years, 1 month and 9 days. It would be interesting to know more about our illustrious forefather if a record of his life had been preserved.

As already mentioned, his first wife and daughter Helena died young. His second daughter Maria, who married a Peter Nachtigal, is not known to have come to America. Nor do we have any knowledge of what became of her. Perhaps they remained in Russia.

The third daughter, Karolina, married Andreas P. Jantzen from Jadweninne, Russia. They came to America in 1874 and settled near Galva, Kansas. She lived to be 94 years old. She lost her eye-sight many years before she died, yet was able to do much work, even to helping with the farm chores. They both are probably buried in the pioneer cemetery in that vicinity. They had a large family and posterity and a list of their children follows below:

- I. HELENA JANTZEN, married to HENRY BOESE
- II. KATHARINA JANTZEN, married to ABRAHAM BOESE, half-brother to Henry.
- III. MARIA JANTZEN)  
  )(twins)
- IV. ELSKA JANTZEN)
- V. EVA JANTZEN, married to DAVID BULLER.
- VI. SUSANNA JANTZ, married to 1st: Warner, 2nd: Russell
- VII. BENJAMIN JANTZ, married to ELIZABETH KERR
- VIII. TOBIAS JANTZ, married to LOVINA SMELTZER.
- IX. KAROLINA JANTZ, married to JOHN BURNS.
- X. ANNA JANTZ, married to 1st: Chris Johnson, 2nd: Christiansen.

As will be seen by the children's list, some of them changed their names to Jantz, Jantzen, and Johnson.

The twins Maria and Elska lived with different relatives until old age overtook them when they were taken to the Salem Home at Goessel, Kansas, where they passed away.

Two of the boys, Benjamin and Tobias, went to Goshen, Indiana, to earn some money, but remained there to live, married and reared their families there.

As will be seen, KAROLINA'S oldest daughter, HELENA JANTZEN, married Henry Boese and also settled near Pawnee Rock, Kansas, where they reared their family

and probably lived all their lives. They came to America, as did her parents KAROLINA AND ANDREAS JANTZEN, on the boat, "City of Montreal." They left Karolswalde Nov. 3, 1874, embarked Nov. 17, 1874 and arrived at Orrville, Ohio, Nov. 30, 1874. One hundred fifty people were on this ship.

HELENA and HENRY BOESE had ten children, the names of whom and to whom married is as follows:

1. John Boese married to Julia Jantz.
2. Susanna Boese married to Andrew Deckert.
3. Benjamin Boese died in infancy.
4. Marie Boese married to Henry D. Unruh.
5. Carrie Boese married to Andrew Siebert, Jr.
6. Sam Boese married to Eva Schultz.
7. Tobias Boese married to Josie Unruh.
8. August (Boese) Base married to 1st: Helena Unruh, 2nd: Mae Merrill.
9. Jacob Boese married to Minnie Schultz.
10. Lena Boese married to Harmon or Herman Weber.

Grant L. Siebert together with others of that community, spearheaded a drive to erect a monument to the Mennonite pioneers who came to Barton Co. in 1874. They did a fine job of building a miniature to scale of the little stone church from the original stones of the old building which was destroyed by a tornado prior to the 50th anniversary of arrival of the pioneers. In cutting the stones a chip flew off entering his eye, nearly destroying his sight. Our Grandfather, Andrew Siebert, Sr., helped build the original structure.

TOBIAS (JANTZ) JOHNSON changed his name to the latter. He with his brother, Benjamin Jantz, moved or went to Elkhart, Indiana, when they first came to America as there were more opportunities to earn money in this community which had been settled by Mennonites from Germany a hundred or more years ago. They married and decided to make their home and rear their families here. Tobias Johnson left a written record of his family and with it submitted the following beautiful sentiment:

"To My Dear Children, in the Name of the Lord"

"My life is drawing to its close  
And in my grave I'll soon repose;  
Much toil and grief my life has seen--  
The Lord my Staff and Stay has been.  
But, now, from here I soon must go  
And leave my children here below;

I leave you in my Father's care  
And hope for heaven you'll prepare,  
Then meet me on the farther shore,  
Where pain and sorrow'll be no more.

Then as my body sinks to rest,  
In Jesus be forever blest.  
In peace and hope seek now to dwell  
While I go hence--farewell, farewell."

This family did not come to the United States until about 1891. They settled in Marion County, Kansas.

A few years after they arrived here his wife, Katharine, died in 1897 and is probably buried in the Mennonite cemetery at the Columbia School where at first the Friedensthal congregation worshipped, and near where later a chapel was built.

Karl A. Decker later married Mrs. Anna Eck Koehn, widow of Henry Koehn, and they lived on a forty-acre farm in Logan Township. They were neighbors to my parents and after his death my father bought their little farm for it joined his property. At the time he left Russia his oldest children were married and had homes established so they remained there to their great sorrow later. So far as we know with him came his deaf-mute daughter, Justina, and his married son, Benjamin. Also one grandson, Jacob T., son of his oldest son, Tobias.

Great Uncle Karl was sort of a community doctor, performing such things as pulling teeth, letting blood, setting bones, etc., a gift which many of the Decker descendants possessed, possibly inherited from their father. He was the oldest son of his parents.

Andreas Decker with his family moved from Russian Poland to South Russia about the time of the Mennonite migration to America. Then from there he decided to move to the new settlement being established at Neu Samara, hoping to improve his economic condition thereby. They made the trek by wagon which took eight weeks' journey, the older girls walking most all of the way. They traveled

through deep sand, over mountains and across deep rivers where often they had to help the horses with the wagon. They ran out of food and sometimes had to go to sleep at night tired and hungry on the bare ground with the horses.

The children had no chance to go to school but learned to read and write from the children of the families for whom they worked, doing their studying on Sundays and at night.

Soon after they arrived at their destination in Neu Samara the father of the family died of smallpox at the age of 44, leaving the mother and children with almost nothing to live on. People were kind and helped all they could but since no one had much because all were pioneers it was a hard life there. Genealogy continues:

1. Eva A. Decker	13 Aug. 1871	Karolswalde, Russ. Pol. . . . .	
Mennonite Brethren	1892	to	Add: Filadelfia,
Heinrich B. Loewen			Fernheim, Chaco,
Parents: Dietrich Loewen	?		Paraguay, So. America

Eva was the oldest child of Andreas A. Decker and Sara Schmidt. She with her sisters and a brother were fortunate in being able to leave Russia after World War I, about 1930. They temporarily lived in Germany until a permanent place could be found for them to settle as well as for the thousands of other Mennonites in this situation.

The Mennonite Central Committee, through Benjamin H. Unruh, worked almost day and night trying to alleviate their suffering and conferring with different countries to negotiate for permission to colonize. Canada accepted a limited number of those in good health, and Eva's sisters and brother were admitted, but Eva's husband was in poor health so they could not go there.

Finally Paraguay agreed to take all who wanted to come there in whatever state of health they might be, and land was obtained in what is called the Chaco region. It was not a favorable place but at that time it probably was the only solution to the refugee problem. Here under the most primitive conditions in this backward country they had to make their homes, having to contend with extreme heat and drouth, sandstorms, myriads of insects, predatory birds and animals, learning to accustom themselves to a strange climate, food, customs, and language.

Eva's husband became very ill on the sea voyage across the ocean for he suffered with hernia. After debarking in the city of Asuncion they sailed a ways up the Paraguay River. Here they had to go by wagon over a very rough trail to their place of settlement which was so hard on him that everyone thought he would die. On arrival they unloaded and made a bed for him under a large tree. They erected a temporary shelter of palms where they lived until a one-room cabin was built. Unexpectedly her husband recovered.

However, ill-fortune still tagged them for now she contracted sore eyes. She no more than had recovered from that when she as well as others in the settlement came down with the dreaded typhus. The death rate from this disease was great until the Paraguayan government was kind enough to send a doctor and the disease was stamped out. Some years later while whitewashing a room she fell and broke her leg. No doctor being available, a neighbor lady set the bone and

she had to be in bed in a half-lying, half-sitting position for eight weeks. Now her limb had healed, but alas it was crooked and she has had to walk with a cane.

To begin with, when they left Russia, she had the heart-breaking experience of having to leave her oldest daughter, Susie, for her husband refused to come along. She did not hear from her for many years when one day she decided to write. To her surprise, Susie received the letter; she wrote back to her mother with great feeling and told how happy it had made her; but they were in a needy state and asked for help. They sent a package to them which they fortunately received, but since then no more word has come from Susie. It is hard for us to imagine the hardships and privation these good people lived through. Have had no word from her for several years so don't know if she is still living, but in thinking of her the following passage from the Bible comes to mind:

"These are they which came out of great tribulation, and have washed their robes, and made them white in the blood of the lamb.

"Therefore are they before the throne of God, and serve him day and night in his temple; and he that sitteth on the throne shall dwell among them. They shall hunger no more, neither thirst any more; Neither shall the sun light on them nor any heat. For the Lamb which is in the midst of the throne shall feed them, and shall lead them unto living fountains of waters; and God shall wipe away all tears from their eyes." Rev. 7:14-17. The above information is about all we have of the Anna Decker-Kornelius Enns family. In his letter to me Cornelius, Jr., writes:

"Am sorry to say that I cannot give you much definite information on our family because all, except myself and family, remained in Russia. We had all together planned and worked to leave there but when it actually came time to go they remained behind. For my parents it was impossible because Mother was bed-fast with arthritis so Father and I decided to take her to a resort for treatment. It was for us a sad day for we had to take her to this place on a freight train on account of her having to be carried on a litter which was too large to go thru the door of the express train. Aunt Eva (Mrs. Loewen) also accompanied

us the distance of 200 miles. Father stayed behind with Mother and I went home. Two weeks later we left for America. Our Mother later died a painful death because it developed she also had brain cancer. It was 1926 and we've had no correspondence with our brothers and sisters so I am submitting to you only what I can remember."

3. Susanna A. Decker	20 May 1876	South Russia
Mennonite		to
1st: Peter H. Friesen		
Parents: Heinrich Friesen and . . .		

(1) Heinrich Friesen

Died at age 1½ yrs.

Susanna was a trained practical nurse and her services were much in demand in obstetrical cases. She also gave instruction to others training for that service. While they were still living in Russia and during one of the purges, her husband also was arrested and for a time kept in a nearby prison where she was able to take him food and do his laundry. Later she missed him and searching for him she found him in a morgue with other frozen bodies, took him home and buried him. After several years she was married again to a much younger man but this marriage was unfortunate in that it resulted in a separation. Her second husband's name was Jacob Dick.

4. Sara A. Decker (nurse)	14 Apr. 1878	Neu Samara, S. Russ.	Maple Grove
Mennonite	19 Nov. 1911	to	Rd., Beamsville, Ont.
David Thielmann	3 Dec. 1872	Nikolaidorf, S. Russ.	Rt. 4
Parents: Marten Thielmann and Helena Kaethler.			

Reproduced herewith is a brief account of their exit from the Soviet Union submitted by Mr. David Thielmann:

We were happy in Russia and did not wish to leave our home there. We had worked hard in our village of Schoental and had arrived at a moderately comfortable and prosperous station in life. I had acquired three farms and my wife, Sara, who was a nurse, in our settlement of 32 villages, was much in demand for her services.

However when the government began to check each household on provisions and to ration food, we became alarmed and decided to sell our farm equipment, stock and household goods. It was a decision we made reluctantly. Our land we could not sell with the buildings on it so had to leave it. Early in March, 1929, we boarded the train for Moscow to get visas to emigrate. In our provincial capital we could not apply for them.

We found living quarters about nine miles from the center of Moscow where a clearing had been made and cabins built for workers which we were able to rent. We bought a streetcar pass for transportation but even at that we had to do much walking. We found we had to make application for departure by starting with a series of offices at the lowest level, being referred each time to a higher court, until we at last were to reach the ZYC, the highest court. We were asked the reason for wishing to leave. Some said they wished to join relatives, others gave the reason for religious freedom. Many of these summarily were liquidated.

At first we were only seven families in our wooded nook. Four of us kept closely together. By July the number of families had increased to 60! It took much time before they even gave us a "yes" or "no" answer, and summer passed

into winter and soon it was again spring, and by the end of April we still had not reached the ZYC. However we got along fairly well in our secluded spot since we were spared the turmoil of life in the heart of the city.

Sometimes government men dropped by and at such times everyone became frightened and apprehensive because each one feared trouble.

There was much discussion among the emigrants as to what reason to give for leaving Russia, but I decided for religious freedom.

About the middle of May, 15 men received invitations to come to the ZYC office where each had a separate hearing. When it came to my turn I said we were leaving mainly because of religious reasons. When only half of us had been heard we were dismissed by an officer who told us to appear again at a certain date. Happily no objection had been voiced by the examining officer for the reasons given, and we left light of heart because we figured it signified acceptance of our requests. At the last hearing we were given permission to leave.

In July we left Moscow. Thirty families entrained but none of us were allowed to take much money out of the country, a rule applying to all citizens, so I left behind several hundred dollars. However our MCC had arranged with the CPA to defray the cost of our journey. Instead of the train going to Riga, Latvia, as usual, we were taken to Leningrad, and here shunted into a sidetrack. It cost us extra money for living expenses for this delay. No doubt this was done to make the journey cost as much as possible so the Soviet government could collect that much more from the Canadian Pacific R. R. and proved to be a bad arrangement because we had to pay back this money. But it proved profitable for the Soviets to make it cost as much as possible, and we were glad to pay it all back even with interest in order to get out of the "worker's Paradise."

From Leningrad we were taken to Hamburg, Germany, by ship and for me it seemed like a dream when I stepped off and stood on German soil. All emigrants were quartered in the examination building at Hapach. The first day we took a bath and cleaned up. Next day the doctors arrived to examine us. But alack and alas,--we learned that although the Soviet doctors had passed nearly all, the German doctors found almost half of us ailing! About half of several thousand were accepted and the others would have to stay, including us! More emigrants arrived and the same was done with them.

By this time people throughout all the far-flung regions of the Russian empire had heard of the success of the first few departing and thus came by the thousands to get permission to leave also. Germany and Canada became alarmed as they could not see their way clear to receive all. It was during the economic depression and Canada later closed her borders entirely for that time. Neither could Moscow accomodate all these people so the government began to forcibly return back to their homes those who had come there to ask for departure.

But on the scene were Dr. Benjamin Unruh, formerly from South Russia (now living in German), who with others valiantly kept up their efforts to negotiate an agreement between Russia and Germany for the latter to accept all emigrants temporarily until a permanent place of settlement could be found for them. Enough cannot be said about the heroic persistence and brilliant statesmanship of these men who with President Hindenburg of Germany finally succeeded in getting about 4,000 souls out of the Soviet Union, President Hindenburg donating 200,000 marks of his own funds for this purpose. The Old Mennonite Relief Treasury was organized to help with the support of these refugees. Besides Mennonites there were also Lutherans and Catholics.

As was mentioned before, Russia tried to stop the whole movement by detouring the first transport train to Leningrad, delaying it there, and by ship sending them to Hamburg. Many passengers had to sell their clothing or whatever they could spare to buy food and lodging, until some of them went to the German Consul who helped to untangle the situation.

Then Russia made still another attempt to ball things up. Instead of shipping them to Hamburg, the harbor, they sent them to Kiel. Here they again were in great distress to find means of sustaining themselves for the city of Kiel could not accommodate them. However council was taken and a solution was found so that all could be accepted. The rest of the refugees came by way of Riga, a few hours ride from Moscow, without even having been examined by a doctor.

Since Canada could not take them all a great many were sent to Paraguay and some to Brazil. Paraguay agreed to take all, incompetents, sick or well. A few indigent persons remained behind in Germany. Unruh and Bender continued in their attempt until they found asylum for all who came out of Russia. Paraguay granted them exemption from military duty and non-interference in either their religious or economic life. However because of the great disadvantages already mentioned these refugees have had to put up a heroic battle for existence.

Peter and Anna had six more children who died in infancy, and thus are not given here.

Mr. Peter Decker, Sr. made a journey from Russia to the United States in 1913 to visit his grandfather, Karl A. Decker in Kansas, and his uncles and aunts. He decided to go back to Russia, married Anna Penner there, and then much later again came back, this time to Canada with his family.

7. Maria Decker, R.N. Menn. Breth. Heinrich H. Nickel Parents: Heinrich Franz Nickel and Susanna Warkentin.	5 Sep. 1890 7 May 1910 8 June 1887	Wernersdorf, Russ. to Klippenfeld, R. (Rt. 4, B.C., Can.	509 Carvolth Rd., Langley Prairie,

The life history of Maria Decker Nickel is an inspiring story of courage, perseverance and hard work. She was the youngest of the Andreas K. Decker children and she took care of her mother in her old age in Russia until she died.

During the first World War her husband, a German national, was held as a prisoner of war by the Russians, but later was released when the war was over. Then soon, of course, came the Bolshevik Revolution, but they did not get caught in it but were taken along by the German army as they retreated back into Germany. Here they had to work very hard but were glad to once again live among civilized people, as she says.

Later they too came to the United States, feeling fortunate that the family could be together. They came to live at Halstead, Kansas, where Maria went into nurse's training at the Halstead Hospital, all the while taking care of her family and home. She finished with flying colors and graduated as a nurse. A great accomplishment for one whose real drawbacks were so many.

Their children continue as follows:

IV. SUSANNA K. DECKER 1850 (?) Russian Poland  
Mennonite to  
Tobias Jantz (?)  
Parents:

Susanna and her husband reportedly came to the United States quite a bit later and seem to have lived in Western Kansas somewhere. However no trace of their existence has been found.

V. PETER K. DECKER 5 Mar. 1853 Russian Poland  
His wife's name was Maria, and they also moved to Siberia during or after the Revolution where he reportedly died at about age 75.

They had a daughter, Helena, and it may have been she who wrote a letter to Karl Decker from Ebenfeldt, dated Dec. 8, 1909. I will quote part of it:

Dear Grandpapa:

Will report that we received the inheritance from you of 154 rubles and thank you for it. It made us so happy and we drove to town the next day and purchased some long needed things. Samuel Decker also got his. Papa, I wish to ask you a question. Why did Samuel get more than I? Am I not also your child and did I not work as much while at home? Besides he has a nice farm given to him by the Crown, 4 good horses, 2 cows, a sled, chickens, etc., while I have very little. No doubt you feel it is no concern of mine, but I am curious as to what is the reason. We had no hog to butcher, 3 poor horses, 2 cows without milk and 8 chickens. No lard.

Must mention that we have a nice Sunday school of about 50 pupils and our daughter is one of the 4 teachers; I am superintendent. We come together one day each week for Bible study and prayer so as to have something to present to the children Sundays. May we receive the Lord's help and all glory and honor be to Him. I injured my leg last week so have been confined to the house several days.

Please give my regards to all my sisters and brothers, uncles and aunts and all who inquire of me. We've had a mild winter, seldom less than 28°. Will close for now with best wishes, Peter and Maria Decker.

VII. HELENA K. DECKER Mennonite John D. Nachtigal Parents:	15 Feb. 1859	Russian Poland to
---	--------------	----------------------

This couple probably remained in Russia, but apparently some of their children came to America. An old letter from them to my parents has been preserved and a translation from the German is reproduced herewith:

Krasikoff, 5th of February 1917.

Dear Friend Jacob P. Eck  
together with your family: many sincere greetings from us, Johann D. Nachtigalls. Your letter which you sent Special Delivery to us we received Feb. 5, 1917. We are sorry that you accuse us of not having answered and that you received word from us thru our children and Susanna Voth, (Mother's sister). We definitely wrote twice from Samara to you with the earnest plea that you send to us our inheritance, but received no answer. Therefore I wrote to our son and Susanna Voth to notify you that we are in dire need.

Dear Friends, please write to us and tell us exactly how much money you remitted to us, not counting mailing costs. On December 25, 1916, we received 305 rubles and 10 kopek and I sent to you the same day a postcard acknowledging it.

There is a Lutheran lady living here whose husband is in America who sent her \$15.00 and from that she received 44 rubles and 80 kopek in Russian money. At that rate can you figure how much we were supposed to get from the \$157.00?

(Signed) J. D. Nachtigall

John D. Boese	1 Dec. 1856	Russian Poland	9 June 1935
Parents: David Boese and Elizabeth Boese.			

Uncle Karl's youngest daughter, Justina, had the misfortune of being handicapped by being a deaf-mute. Tradition has it that she was left that way thru a severe illness. She had a very hard life because of that and the church congregation had purchased them a piece of land (80 acres) but the soil was rather stony and poor and the family had to have help to make a living.

One daughter, Lena, was an epileptic and was taken to the Salem rest home near Goessel, Kan., where she finally passed away and where later Justina and her husband also lived out their days.

<p>Abram Dekker said goodbye to his parents, sisters and brothers in Siberia where they had their home, and escaped from Russia into China in December, 1930. He evidently met his wife in the refugee colony in Harbin, China, where they were married. A large number of Mennonites as well as other refugees came by this route from which they booked passage to other countries for permanent settlement. They arrived in Brazil May 30, 1934, where he now has a thriving lumber industry. I asked him to write an account of his escape and experiences, but he is a very busy man and apparently never got around to it. He has to be away from home much in his business affairs, often flying by plane</p> <p>So far as is known, he is the only one of his father's children to escape from Russia and thus he represents his branch of the Karl Decker family.</p>			
X. JACOB K. DECKER	7 Sep. 1864	Russian Poland.	
(Nothing is known of this youngest son of Karl Decker.)			

1826 - 1920

1815 - 1911

SOPHIA was the fifth child of Andreas J. Decker and Helena Schultz(en) and was born in the village of Karolswalde, Province of Volhynia, Russian Poland.

She was baptized in the Mennonite faith May 15, 1840. Later in America she joined the Seventh-day Adventist Church, presumably after her husband's death.

She was married to Andreas P. Schmidt who was born in the village of Michalin, Province of Kiev, Russia. No doubt his parents were some of the original pioneers of Michalin, which was a new colony settled by emigrants from the Vistula River valley in Poland.

Sophia and Andreas Schmidt came with their family to the United States with the mass migration of Mennonites. They left their home in Poland and came over in the ship, "City of London" which docked in New York harbor in November, 1874. This was a wooden vessel; and in addition to a steam boiler, it also had sails according to record. They came by train to Newton, Kansas, and probably lived the first winter in one of the immigrant houses erected for that purpose by the Atchison, Topeka and Santa Fe Railroad which had sponsored the immigration of the Mennonites.

In the spring, they settled with other "Michaliners" on a site not far from Newton and formed the congregation known as "Gnadenberg," (meaning Grace Hill), and later given the English name of Grace Hill Mennonite Church. These people brought with them the original Michalin Church record from their old home in Russia in which occurs the family record of Andreas and Sophia Schmidt, and which is preserved in the Bethel College Historical Library at Bethel College, North Newton, Kansas.

Evidently most of their children must have left there not long after coming here as only the family record of their oldest daughter, Susanna and her husband, Peter Balzer, is recorded in it. So the record of their posterity is sketchy since we were not able to trace the whereabouts of most of their descendants.

Their son, Heinrich (Henry), is the last of their family still living and most of his family is recorded here. Sometime after her husband's death, Sophia was taken by him to California where she died and is buried in the vicinity of Escondido.

For the honorable man: Abraham Jantz

Abraham Jantz, now living and being neighbor on Karolsberge at the town Ostroga, Volhynia Government, Kaisertum, Russia.

Taken from the church record of Abraham Tobias Von Jantz No. 17 and 16 newly prepared by schoolteacher Heinrich Block at Karolswalde, the 10th day of December, new era 1860.

In the year of our Lord 1827 the 20th day of May, new era, 10 o'clock Sunday evening I, Abraham Jantz, was born at Karolswalde. The sign of the day planet was Aries and the sign of the month planet was Taurus, being the 25th day in the new moon. The above is the excellent family record of Katharina Decker and Abraham Jantz.

It is an excellent example of the way our forefathers kept a record of their families. I am afraid we are not nearly as diligent in this matter as they were, now that the states have been given that task, but it would be a good idea if we picked it up again and kept records so we would have them handy in case of reference or quick emergencies.

KATHARINA A. DECKER and ABRAHAM T. JANTZ

1828 - 1918

1827 - 1901

F. KATHARINA A. DECKER was one of the older children of Andreas Decker and was born in the village of Karolswalde; there she was baptized by the friendly Elder Benjamin Derks and taken into the fellowship of the Mennonite Church. Here she was married to Abraham Jantz from Karolsberge. He was a son of Tobias von Jantz but his mother's name is missing. He was baptized into the Mennonite faith May 27, 1844. Katharina was baptized June 15, 1845. The information of where they settled is lacking but no doubt somewhere in Kansas.

The list of their children and to whom married is as follows:

BENJAMIN DECKER AND KATHARINA UNRUH.

1831 - 1917

1840 - 1900

This family came to the United States on the ship "City of London" which docked in New York in November 1874. Their former home had been in the village of Karolsberg, Province Volhynia, Gouv. Zhitomir, Poland, which at that time was occupied by Russia.

They arrived at Newton, Kansas, by train and were housed the first winter in what was called the "Immigration House," a barracks-like building erected for that purpose by the Santa Fe Railroad which had sponsored this movement for the purpose of settling the sparsely populated area along their right-of way. Due to a deficient diet and lack of sufficient warm clothing and bedding the death rate of these immigrants the first year was very high.

Benjamin had married the maiden, Katharina Unruh, in Poland and to them were born eleven children, six of whom died in infancy their names and dates have not been given in the DECKER family record. He was baptized the 6th of April 1851, by Elder Benjamin Derksen into the Mennonite faith in the Karolswalde Chapel.

Mrs. Katharina Unruh Decker died June 29, 1900, and Benjamin was married the second time on January 1901 to Elizabeth Block.

Benjamin Decker was faithful to his father's wish in his request to rewrite the DECKER family record and bring it up to date. Thus we are greatly indebted to him for having this done and getting it published. Even with a few mistakes and some omissions it is an excellent record on which was built this record and history.

A list of the surviving children follows:

I. ANDREW DECKER to  
ANNA KLIEWER

III. HELENA DECKER to  
JACOB T. DECKER

II. GERHARD DECKER to  
MARIA KLIEWER

IV. ANNA DECKER to  
JACOB H. UNRUH

V. JOHN JACOB DECKER to  
EVA JANTZ

Benjamin Decker settled in McPherson County, Kansas, Lonetree Township, and lived there all his life, and as did all his contemporaries, made his living by farming. His oldest son, Andrew, went to southern California with his family so his descendants live mostly in that vicinity.

Likely Benjamin and Katharina and perhaps Elizabeth, his 2nd wife, are all buried in a cemetery in McPherson County.

"Blessed are the dead which die in the Lord from henceforth; yea, saith the Spirit, that they may rest from their labors; and their works shall follow them,"

Rev. 14, 13.

JOHN DECKER and  
2nd: ELIZABETH KOEHN

JOHN DECKER, son of Andreas Decker and Helena Schultz came to America with the great wave of Mennonites from Russia in 1874. He with his first wife and seven children landed at Newton, Kansas, late in the fall in December. The ship on which they crossed the ocean was the "City of London."

Instead of living in the Immigration House, a huge barracks-like building erected for the purpose of housing them temporarily, he with Mr. John B. Unruh rented a house in Newton where they spent the first winter.

He had somewhat more means than most of the other immigrants so he lost no time in looking around to buy a farm. He found one in Mounds Township which he bought and moved his family onto it.

The winter had been mild but in early spring a very severe cold spell set in when they thought they would freeze to death. And due to an insufficient diet and a lack of enough warm clothing and bedding the death rate among the colonists was high that first winter. Among those who died was also Mr. Decker's wife, Katharina, after the birth of her daughter Elizabeth. This was indeed a hard blow to the family for the children ranged in age of the tiny baby to twelve years. Lena, being the oldest girl, had to take over the management of the household at the tender age of 10 years.

However, he was fortunate in finding another loyal mate in Elizabeth Koehn who took over the task of rearing this large family in addition to her own rapidly increasing brood.

By enterprise and judicious management he accumulated sizable holdings and a comfortable living. He died at the age of 89 years and is buried in the Emmanuel Mennonite cemetery near Moundridge, Kansas.

On the following page is a list of their children by both his first and his second wife.

LUVANTINA DECKER 1835 - 1920

It is too bad that we have so little information on the life of LUVANTINA and her husband, TOBIAS SCHMIDT, except the usual facts that they were born in Russian Poland, Province of Volhynia, near the city of Ostrog. They also came to America, but what year or on what ship they sailed we do not know.

They evidently settled in Marion County, Kansas, for their names are found in the record of the Friedensthal Congregation. Tobias' father was Peter Schmidt but his mother's name is not known. Luvantina was baptized into the Mennonite faith 6 April, 1851, and Tobias 13 July, 1849, probably at Karolswalde.

One interesting facet about her is her given name. It is very unusual, and so far as known, not found in the general category of names among the Mennonites.

According to tradition she and her youngest sister, Luvina always with each other as to which name belonged to whom. This is evident in the Siebert emigration documents where Luvina's name is given as Luvatina, also Yufentina.

However, since we fortunately have the early DECKER family record, we see by it that the names of the two girls were definitely Luvantina and Luvina.

Most of their children and grandchildren used the name Smith rather than Schmidt.

They had a very large family of 13 children, their names, birth dates, to whom and when married is registered on the next page, so far as is known.

JUSTINA A. DECKER and DAVID WEDEL

This family also came to America on the "City of London" in November 1874 to the harbor in New York. They settled in Barton County, Kansas, where Mr. Wedel bought a farm and established his home.

Both he and Justina, his second wife, were charter members of the Bergthal Mennonite Church near Pawnee Rock, Kansas. When he died he was buried in the Pawnee Rock City cemetery. Justina was later married the second time to Peter Nickel.

Mr. Wedel was quite well to do before the immigration to America took place, but he was a generous kindhearted man and gave of his substance that those who had none, or very little, could also have the opportunity to come to the New World. He helped many relatives and friends financially and in other ways to get a start.

Justina Decker Wedel Nickel is buried in the Grace Hill Church Mennonite cemetery not far from Newton, Kansas.

By way of explanation, Mr. David Wedel was married the first time to Susanna Ratzlaff who died after the birth of her third child in Russian Poland. Her parents were Jacob Ratzlaff and Anna Peter Jantzen, and she was born the 8th of January 1828. She was baptized by Elder Benjamin Dirks into the Mennonite faith and died the 10th of August 1855. They were married 29 October 1848 at Karolswalde and of this union were born the following children:

- |                    |              |                    |
|--------------------|--------------|--------------------|
| 1. Jacob Wedel     | 5 Aug. 1849  |                    |
| 2. Cornelius Wedel | 29 Nov. 1851 | Died May 26, 1855. |
| 3. Maria Wedel     | 6 Feb. 1854  |                    |

Justina A. Decker was born February 23, 1837, in the village of Karolswalde, Province of Volhynia, Russian Poland. She was baptized in the Mennonite faith there.

Her parents were Andreas J. Decker and Helena Schultz.

She was married on November 18, 1855, to the young widower, David Wedel, born April 15, 1830, in the Province of Volhynia, Russian Poland. He was baptized in the Mennonite faith June 15, 1845. Marriage rites were performed in the Chapel at Karolswalde and the wedding took place at the home of Justina's parents.

LUVINA A. DECKER AND ANDREW SIEBERT.  
1839-1919 1834-1915

LUVINA DECKER was the youngest child of her parents, Andreas and Helena Schultz Decker of Brenkenhofswalde, West Prussia. She was born in Karolswalde village, and being the youngest, it was natural that she was a little spoiled. At least she manifested those characteristics not a little all thru her life. However, she and her husband Andrew Siebert had 15 children, eleven of which attained maturity.

They came to America in 1874 on the ship, "City of London" to Newton, Kan., and from there they went with the colony soon after to settle at Dundee, Kansas. They spent their first winter in a railroad freight car furnished by the A. T. & S. F. R. R. Co., which had sponsored these immigrants.

Soon after their arrival at Dundee their son Heinrich, one of the twins, died. She commented that if she had thought to take along a sack of onions which would have been of great value to all of them in their diet aboard ship and during their first winter here, he might not have died, because his illness (T. B.) it was thought was caused by his undernourished condition.

Grandmother Luvina Decker Siebert was a practical midwife and her services were in great demand in the colony where the birthrate was high and no doctor available in the early pioneer days. Many of the first generation born among our people owe their first breath of life to her ministrations.

She often expressed herself as being happy that they came to the United States because the younger generations had a much better chance for an education and opportunities for better spiritual and religious development than they had in the old country.

Soon after Grandfather died she had to sell their old farm home and went to live with her daughter, Mrs. Susie Voth near Canton, Kansas. She outlived Grandfather only a few years when she passed away and her remains were taken to Pawnee Rock and laid to rest in the Bergthal Cemetery. She attained the age of 80 years, 1 month and 6 days. Grandfather Siebert is buried at the Columbia School Cemetery in Marion County, Kansas.

Grant Siebert with several others of that community spearheaded a drive to erect a monument to the Mennonite pioneers who settled there in 1874. They did a fine job of building a miniature to scale of the old stone church from the original stones of the old building which was destroyed by a tornado just prior to the 50th anniversary of the arrival of the pioneers. In cutting the stones a chip flew off, entering his eye, nearly destroying his sight.

#### CHANGE OF CALENDAR.

A word needs to be said here about the change of our calendar that took place while our forefathers lived in the old homeland.

The Julian calendar was used by Christians until the fall of the Roman Empire.

Pope Gregory XIII abolished it and introduced the reformed, afterwards known as the Gregorian Calendar, in all Catholic countries. Accordingly 10 days were added in 1582 when Oct. 5th, according to the old calendar, was reckoned Oct. 15, 1582, every 4th year being a Leap Year. It was adopted by France, Spain and Portugal in 1582, Switzerland and Holland 1583, Poland 1586, Hungary 1587, England 1752, Russia 1902, the latter being one of the last ones to adopt it.

This explains the phrase often seen in family records of our people, "New Style", meaning the new Gregorian Calendar, or "Old Style" or "Russian Style," meaning the Julian Calendar. It caused some confusion in birth, marriage and death dates in family records and accounts for some difference submitted by different families.
